P. RAJAGOPALA ACHARIYAR,
Secretary to Government.

Ootacamund, May 10, 1916.

No. 281.—It is notified for general information that the Custodian of Enemy Property, Madras, will keep a record of —

(*a*) debts (including Bank balances) due to persons or firms in the Madras Presidency and the Province of Coorg from persons or firms residing or carrying on business in an enemy country;

(*b*) other property in enemy countries (including securities) belonging to persons or firms in the Madras Presidency and the Province of Coorg;

(*c*) personal baggage detained in an enemy country and belonging to such persons, and

(*d*) claims against enemy Governments, e.g., in respect of public securities of those Governments and goods or property requisitioned, sequestrated or destroyed by those Governments.

2. Persons or firms in the Presidency and in Coorg desiring to register their claims should apply in the appropriate form to the Official Trustee, Madras, who is the Custodian of Enemy Property for

those territories. The following instructions have been issued for the guidance of those who wish to register such claims. The forms prescribed for the purpose, and any other information required on the subject, may be obtained from the Custodian :—

MEMORANDUM OF INSTRUCTIONS AS TO REGISTRATION OF CLAIMS AGAINST ENEMY SUBJECTS AND ENEMY GOVERNMENTS.

Claims against enemy subjects.

1. The forms prescribed for the purpose of recording claims against enemy subjects are given in the annexed Schedule.

2. *Registration Order "G"* should be used by persons or firms residing or carrying on business in India to make a return of :—

(1) Debts owing to them by enemy persons or firms including unpaid dividends and uncashed coupons and unpresented bills accepted by and unpresented cheques drawn by enemy firms or persons.

(2) Bank balances held for them by Banks situated in enemy territory.

(3) Interest which has accrued on items recorded on Registration Order "H".

It should be noted that unpaid dividends and uncashed coupons and unpresented bills or cheques are debts and should be recorded on this form.

3. *Registration Order "H"* should be used for the purpose of making a return of property other than debts, Bank balances and personal luggage—held by enemy persons or firms for persons or firms residing or carrying on business in India.

This form should also be used to record claims against enemy Governments and Municipalities in respect of public securities of those Governments and Municipalities held by the persons making the return. The enemy Government or Municipality is, from this point of view, the debtor, and the fact that the paper or other documentary evidence of title is held in this country makes no difference.

This form should not be used for making other claims against enemy Governments, e.g., in respect of goods or property requisitioned, sequestrated or destroyed by those Governments. The procedure in regard to the registration of such claims is laid down in paragraph 6—13 infra.

It is essential that the actual value of the property held and not merely its face value should be recorded and in estimating these values the following rules should be observed :—

(a) In all cases where sales in the securities are now taking place, or have taken place since the war began, the prices realised at such sales should be taken as the basis of the valuation.

(b) In other cases where no such sales have been made, the value should be the value on the 1st August 1914, or on the latest date previous to the 1st August 1914, on which a price was recorded.

(c) In cases where lands, houses or leases are included in the return, the value recorded should be the estimated capital value as on the 1st August 1914, less the estimated capital value of any charges on the same.

4. *Registration Order "J"* should be used to make a return of personal luggage left behind in the enemy country by His Majesty's subjects when travelling home before or since the outbreak of war. Great care should be taken to indicate whether the luggage was given into the charge of some one (e.g., a railway official or hotel-keeper) or was detained against the will of the traveller.

5. Returns in reference to occupied territory should be made on precisely the same forms as those referred to above, except that they will be issued stamped with a rubber stamp with the words "occupied territory".

Claims against enemy Governments.

6. Claims against enemy Governments in respect of public securities of those Governments should be recorded in Registration Order "H", as indicated in paragraph 3 ante. As regards other claims against enemy Governments, such as those in respect of property requisitioned, sequestrated or destroyed by those Governments, a statutory declaration verifying the claim should be sent. The declaration must be in the form prescribed under section 7 of the Indian Oaths Act, 1873.

7. If the claimant was born within His Majesty's dominions, the declaration should state the date and place of his birth. If the claimant was born outside His Majesty's dominions but derives British nationality from his father or grandfather, the declaration should state the date and place of birth of such father or grandfather.

If the claimant is a naturalized subject of His Majesty the declaration should state the date of his naturalization and his previous nationality.

8. If the claimant is a Company incorporated under any law for the time being in force in any part of the British Empire, the declaration should state the date of incorporation.

If all the persons holding shares or otherwise interested in the Company are subjects of His Majesty the declaration should state that fact.

If some of the persons holding shares or otherwise interested in the Company are aliens, the declaration should state the nationality of those persons and the nature of their interest in the Company.

9. Full particulars of the property in respect of which the claim is made should be set out in the declaration or in a schedule attached thereto.

10. The declaration should state the value of the property and the amount of claim.

Where the value of the property can be proved by documentary evidence, copies of those documents should be attached to the declaration.

Where documentary evidence of the value of the property cannot be adduced, the evidence of the claimant should, so far as it is possible to do so, be corroborated by that of other persons.

11. The declaration should state the facts with regard to the requisitioning, sequestration, or destruction of the property so far as they are known to the claimant.

If the claimant holds any receipts or other documentary evidence of the seizure of his property, copies of such documents should be attached to the declaration.

12. The declaration should also state that, at the date when the property was requisitioned, sequestrated or destroyed, the claimant was the absolute owner thereof.

13. If the claimant, or any person on his behalf, has received any payment in respect of the property, particulars thereof should be set out in the declaration.

General.

14. In making these returns, the term "enemy" should be understood to mean a person of whatever nationality, residing or carrying on business in an enemy country, and the expression "enemy country" should be taken to include territory for the time being in hostile occupation. A British subject who resides or carries on business in enemy territory is, therefore, for the present purposes, to be considered an enemy, while a person of German, Austrian, Turkish or Bulgarian nationality residing in this country, even though interned, is not an enemy from this point of view.

With regard to the date to be selected for the making of the return, this should be the outbreak of the war, that is to say, midnight of 4th August 1914 for Germany and Austria-Hungary, 5th November 1914 for Turkey, and 15th October 1915 for Bulgaria. With regard to territory occupied by enemy forces, the date should be the date of occupation as nearly as can be ascertained.

15. It must be clearly understood that the action of the Custodian of Enemy Property or other officer appointed for the purpose will be confined to entering upon the record claims of which particulars are supplied to him, and that it in no way commits His Majesty's Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question. But it is hardly necessary to state that it is in the interest of the creditors that the returns are asked for, as giving important data for the safeguarding of that interest.

SPECIAL CONDITIONS TO BE FULFILLED.

34. The registering authority shall decline to register a heavy motor-vehicle unless he is satisfied that it fulfils all the conditions special to heavy motor-vehicles laid down by rules made under the Act and in order that he may so satisfy himself, he may require the production of the heavy motor-vehicle at such time and place as he thinks fit and may also cause the weight of the heavy motor-vehicle and the axle-weight of each axle to be ascertained in such manner as he may by general or special order direct.

REGISTERING AUTHORITY MAY CAUSE THE AXLE-WEIGHT FOR THE TIME BEING OF ANY AXLE OF A HEAVY MOTOR-VEHICLE TO BE ASCERTAINED.

35. When the registering authority or any officer duly authorized by him in this behalf has reasonable ground for suspecting that the axle-weight for the time being of any axle of any heavy motor-vehicle or trailer drawn thereby exceeds the registered or marked axle-weight of that axle he may cause the axle-weight for the time being of any such axle to be ascertained.

The person driving or in charge of such motor-vehicle shall to the best of his ability afford all such facilities as may reasonably be necessary for the purpose of ascertaining the axle-weight as aforesaid.

(2) The tires of each wheel of a heavy motor-vehicle, unless the tires are pneumatic or made of a soft or elastic material, shall be smooth and shall, where the tire touches the surface of the road or other base whereon the heavy motor-vehicle moves or rests, be flat, provided that the edges of the tire may be bevelled or rounded to the extent in the case of each edge of not more than half an inch.

Provided also that—

(i) if the tire is constructed of separate plates, the plates may be separated by parallel spaces which shall be disposed throughout the outer surface of the tire so that nowhere shall the aggregate extent of the space or spaces in the course of a straight line drawn horizontally across the circumference of the wheel exceed one-eighth part of the width of the tire;

(ii) the driving wheels of a heavy motor-vehicle shall be cylindrical and smooth-soled or shod with diagonal cross-bars of not less than three inches in width nor more than three-quarters of an inch in thickness, extending the full breadth of the tire, and the space intervening between each such cross-bar shall not exceed three inches;

The cylinder taps of a heavy motor-vehicle propelled by steam shall not be opened within sight of any person driving, riding, leading or in charge of any horse upon the road or street, nor shall the steam be allowed to attain such a pressure as to exceed the limit fixed by the safety-valve so that no steam shall blow off when the vehicle is upon the road or street.

CONDITIONS FOR THE USE OF TRAILERS.

39. No person shall haul, by means of a heavy motor-vehicle, in any public place, more than three trailers at a time, nor any trailer, unless the following conditions are satisfied:—

(ii) each trailer attached to a heavy motor-vehicle shall have a brake approved by the registering authority and such trailer shall carry upon it a person competent to apply the brake efficiently, provided that, where the brakes upon the motor-vehicle to which any trailer is attached are so constructed and arranged that neither of them can be used without bringing into action simultaneously the brake attached to the trailer, or if the brakes of the trailer can be applied from the motor-vehicle independently of the brakes of the latter, this rule shall not apply;

(iii) the heavy motor-vehicle shall not at the time be in use as a public conveyance.

Financial (Funds),
No. 3.

TO HIS EXCELLENCY THE RIGHT HONOURABLE THE GOVERNOR-GENERAL OF INDIA IN COUNCIL.

MY LORD,

Indian Civil Service Family Pensions Date of mess Valuation

In paragraph 3 of my predecessor's Despatch, Financial (Funds) No. 1, dated 30th January 1914, attention was drawn to the very thorough manner in which the whole Indian Civil Service Family Pension Scheme had been investigated by the late Sir George Hardy, K.C.B., past President of the Institute of Actuaries, in the course of preparing his Reports on the valuation as at the 31st March 1911. After a careful consideration of those Reports, changes in the regulations with effect from the 1st April 1914 were authorised embodying certain concessions to the subscribers. As only two

years have elapsed since that time, it seems unnecessary as yet to investigate the financial position of the scheme afresh, especially at a time when great pressure of work is caused by the War. I have, therefore, decided in Council that the next Valuation of the Scheme shall be made as at the 31st March 1918, instead of as at 31st March 1916.

2. You may perhaps consider it desirable to publish this Despatch in the *Gazette of India* for the information of the subscribers.

I have the honour to be,
My Lord,
Your Lordship's most obedient humble servant,
(Signed) AUSTEN CHAMBERLAIN.

Acting Chief Secretary.

2. The services of the department are offered subject to the following general conditions:—

(i) All fees or other charges leviable under the rules governing departmental assistance are strictly payable in advance.

Note.—In cases where the levy of fees is likely to operate as an undue burden on the slender resources of applicants the Director of Industries may at his discretion remit such fees wholly or in part.

(ii) All fees and other charges levied under these rules will be credited to Government.

(iii) Refunds of fees will not generally be made but in the case of advances any surplus which may remain unspent after the work is completed will be returned.

(iv) Though every effort will be made to meet the reasonable demands of the public as promptly as possible, the department offers no guarantee whatever in respect of time.

(v) The acceptance of the services of the department implies the acceptance of the general rules and conditions laid down in this notification.

I.—Information and advice.

1. General information and advice is given free of charge so far as the information is available and advice can be given without local inspection.

2. In cases when information and advice can be given only after local inspection, such inspection can be arranged for on payment of a fee of Rs. 10 for every inspection when the inspection is made by a supervisor. If inspection by an officer of higher standing is required special rates will be charged the nature of which may be obtained on application.

3. When such an inspection is made in connection with the installation of plant, but applicants do not desire to have the plant purchased or erected by the Department of Industries, the inspection report will include a statement of the class of plant required and a sketch plan.

4. In cases where the plant is to be purchased or erected by the department, the charges leviable are shown in section II "Purchase and Erection of Machinery."

II.—Purchase and erection of machinery.

1. The department will, on demand, undertake the ordering of plant, the preparation of plans and the erection of machinery. In such cases a deposit of not less than Rs. 250 or approximately 15 per cent of the value of the plant (whichever is greater) must be made. The fee actually charged for this service is 2½ per cent on estimate plus Rs. 25 (which includes the inspection fee). If an inspection fee has previously been paid on account of the same scheme the charge is reduced by Rs. 10. In addition to this fee a small sum will be retained as an advance for contingencies (the balance being returnable on the completion of the work) and the remainder paid as advances to machinery agents for supply of plant.

2. If applicants wish to modify their scheme or to abandon it after an inspection has been made, they will be charged Rs. 10; if after plans have been prepared, they will be charged Rs. 15 for each set of plans. Provided no orders have been placed, the balance of advance will be refunded.

3. The department can take no responsibility for any losses arising from applicants changing their minds after orders have been placed.

4. These terms apply only to the erection of plant costing less than Rs. 5,000 and cover only supervision. All materials and labour must be found by the applicant. If building work is to be supervised or if the plant is to cost more than Rs. 5,000, special terms will be arranged.

5. To encourage expedition the Director has powers to allow a rebate up to 1 per cent on erection charges if the work is rapidly completed.

6. No plans will be prepared and no plant will be ordered unless it is to be erected by the department or by the supplying firm.

7. Individuals who have already purchased plant may apply for its erection by the department on the same terms as above. To calculate fees, second hand plant will be estimated at its new value. The Director, however, reserves the right of causing an inspection of the plant to be made (costing Rs. 10) and notwithstanding such inspection the Director may decline departmental assistance if he considers the plant unsuitable badly designed or in any other way open to objection.

8. When the engineering services of the department are required for purposes other than the original erection of plant, they will be charged for at daily rates as follows:—

For a supervisor, Rs. 15 for the first day plus Rs. 7-8-0 for every subsequent day.

For a mechanic, Rs. 10 for the first day plus Rs. 3 per every subsequent day.

If there is any break in continuity, the first days' fee will again become chargeable for any subsequent visit.

III.—Systematic inspection of installations.

1. The department will arrange for the systematic inspection of installations. Inspections will be of two kinds, viz., "routine inspections" made at the convenience of the department and "special inspections" made on the urgent requisition of the applicant.

2. The fees for inspection will be determined on two scales, A and B, according to requirements.

3. Scale A provides for routine inspections. Under this scale an applicant is entitled to a minimum of three inspections annually or such greater number as it may be convenient to arrange. In cases of sudden breakdowns special assistance will also be rendered but scale A is intended to apply only to installations where the necessity for special inspections is not frequent. The Director of Industries may at his discretion cancel any arrangement under scale A at the close of the official year if he considers that requisitions for special assistance have been unnecessarily frequent.

4. Scale B provides for the inspection of installations where the number of requisitions for special inspections is beyond that contemplated in scale A. Under scale B no routine inspections will be made and an application should be made every time an inspection is required.

5. The fee leviable under scale A is Rs. 15 per annum for each installation.

6. Under scale B an initial fee of Rs. 15 will be levied which will cover the cost of inspections to the extent of its value, but no refunds will be made if the value of the fee is not completely utilized. Inspections in excess of those covered by the initial fee will be charged for at the rate of Rs. 3 per visit of a mechanical foreman and Rs. 7-8-0 for a supervisor.

7. No installation will be inspected unless fees under one of the two scales are first paid. In cases of non-payment a notice will be issued by the department. If payment is then refused no subsequent assistance of any kind will be given except by special order of the Director of Industries and then only on payment of such additional fees as he may prescribe.

8. The fees mentioned in rules 5 and 6 *supra* will not cover any actual outlay on any repair work carried out by the department which must be paid for in addition by the applicant.

9. Systematic inspection of a plant will be undertaken only after it has been examined and found to be in good condition. If it is not in good condition the applicant will be informed what repairs are required and systematic inspection will be undertaken only on completion of the repairs. If the applicant desires that the repairs should be executed under departmental supervision, a fee of Rs. 10 will be charged for such supervision.

10. The Director of Industries may without assigning any reason refuse to undertake systematic inspection of any plant or installation.

IV.—Boring plant—hand-boring apparatus.

1. The hand-boring tools with which the department is provided will drill to a depth of 100 to 150 feet in ordinary soils but are unsuitable for boring in rocky tracts. Where deeper borings or borings in rocky tracts are required a power drill—*vide* section V *infra*—should be used.

2. Enquiries concerning borings should be addressed either to the maistry in charge of the local boring party, to the local supervisor of the department or to the Director of Industries, Post Box No. 454, Madras.

3. When a boring party is established in a taluk the fact will be notified in the District Gazette. Applications for borings within the notified areas will be registered on payment of a transport fee of Rs. 7-8-0 and an advance of Rs. 10.

4. Borings outside the notified areas cannot be undertaken except by special arrangement and on special terms to be settled beforehand. Ordinarily applications for borings outside the notified areas will be recorded for future reference. They will not be registered and no fees and advances will be accepted therefor.

5. If the limits of the tract where a boring party is established be extended at any subsequent time, the fact will be notified to all persons whose applications for borings in the extended area have already been recorded. If on receipt of the notice the applicants

pay a sum of Rs. 17-3-0 as provided in rule 3 above, the applications will be registered. If no payment is made within a reasonable time after the receipt of the notice, the applications will be regarded as cancelled.

6. The order in which the registered applications will be attended to will be decided by the department with reference to the locality where borings have to be made and the applicants will be duly informed when the boring tools can be placed at their disposal. The department will make arrangements to bring the tools to the site of the proposed boring. If the applicants do not accept the tools when offered, the transport fee will be forfeited and the advance returned.

7. The transport fee is intended to cover the cost of the carriage of the tools to the site proposed for boring. No part of it will be returned to the applicant whatever may be the cost of transport in any particular case nor on the other hand will any further charge be made should the cost of transport exceed the sum of Rs. 7-3-0.

8 The fee for the use of the hand boring tools is Rs. 2 a day This fee covers the hire of the tools and the wages of the moistry in charge thereof. All other charges connected with the work should be borne by the applicant.

9. The advance of Rs. 10 will cover the boring fees to the extent of its value. When the original advance is exhausted further advances should be paid at once. As borings will on no account be put down on credit, the work will be stopped and the tools removed immediately the advance is exhausted unless further advances are paid.

10. On the completion of the boring, any sum still to the credit of the applicant will be returned.

11. Fees will be charged for the use of the boring tools for every day that they remain at the work-spot but as an act of grace the fees may be remitted for the time during which they may be kept idle on account of accident, heavy rain or other causes beyond the control of the applicants The time during which the tools are kept idle on account of the exhaustion of advance, lack of labour or other avoidable causes will be charged for in full.

12. The results of a boring will be communicated to the applicant who will be advised what steps he should take to utilize the water-supply available

13. In cases where sub-artesian water is met with, arrangements will be made, if the applicant so desires, to put down permanent lining tubes, the cost of which must be borne by him.

14. Hand-boring plants may also be levied by the month at the following rates:—

	Rs.
One month	50
Three months	125
Six months	225

In addition to these charges the usual transport fee of Rs. 7-3-0 has to be paid. The monthly hire is subject to certain conditions which can be ascertained on application to the Director of Industries

15. The Director of Industries may without assigning any reason decline to put down any boring and return to the applicant any sums that may have been paid by him.

V.—Boring plant—power drills.

1. The power drills with which the department is provided will ordinarily drill to a depth of 500 to 800 feet in any kind of rock.

2. Enquiries concerning power drills should be addressed either to the local supervisor of the department or to the Director of Industries, Post Box No. 454, Madras.

3. No fees or advances will, in the first instance, be demanded, but a register of applications for the use of power drills will be maintained.

4. The order in which the registered applications will be attended to will be decided by the department with reference to the locality where borings have to be put down and applicants will be duly informed when a power drill can be placed at their disposal. Immediately on receipt of notice, the applicants should remit a transport fee of Rs. 50 and an advance of Rs. 50. If the amount is not paid within a reasonable time after the receipt of the notice the application will be regarded as cancelled

5. The department will make arrangements to take the drill to the site of the proposed boring. The transport fee is intended to cover the cost of carriage and no part of it will be returned whatever may be the cost of transport in any particular case nor on the other hand will any further charge be made should the cost of transport exceed the sum of Rs. 50. If the drill is not accepted when offered the transport fee will be forfeited.

6. The fee for the use of a power drill is Rs. 5 a day subject to a minimum of Rs. 25. This fee covers the hire of the drill and the wages of the trained staff (foreman and driver) necessary for its working. All other charges connected with the work should be borne by the applicant.

7. Applicants should supply cooly labourers and provide the fuel and oil required for the use of the plant or pay the foreman in charge a sufficient sum for purchase of the necessary stores on their behalf. Receipts will be given for sums so paid.

8. The original advance of Rs. 50 covers the hire of the drill for ten days. When that sum is exhausted further advances must be paid at once. As boring will on no account be done on credit, the work will be stopped and the drill removed immediately the advance is exhausted unless further advances are duly paid.

9. On the completion of the boring any sum still to the credit of the applicant will be returned subject to the deduction of the minimum fee prescribed in rule 6.

10. Fees will be charged for the use of the drill for every day that it remains at the work-spot but as an act of grace fees may be remitted for the time during which the drill is kept idle on account of accident, heavy rain or other causes beyond the control of the applicants. The time during which the drill is kept idle on account of the exhaustion of the advance, lack of labour or other avoidable causes will be charged for in full.

11. The results of a boring will be communicated to the applicant who will be advised what steps he should take to utilise the water-supply available.

12. In cases where sub-artesian water is met with, arrangements will be made, if the applicant so desires, to put down permanent lining tubes, the cost of which should be borne by him.

13. The Director of Industries may without assigning any reason decline to put down any boring and return to the applicant any sum that may have been paid by him.

VI.—Pumping Plant.

1. The engines with which the department is provided are capable of pumping from 150 to 325 gallons per minute on a total lift up to 50 ft.

2. Enquiries concerning pumping plant should be addressed either to the local supervisor of the department or to the Director of Industries, Post Box No. 454, Madras.

3. No fees or advances will, in the first instance, be demanded, but a register of applications for the use of pumping engines will be maintained.

4. The order in which the registered applications will be attended to will be decided by the department with reference to locality and applicants will be duly informed when a pumping plant can be placed at their disposal. Immediately on receipt of the notice, the applicants should pay a transport fee of Rs. 25 and an advance of Rs. 25. If the amount is not paid within a reasonable time after receipt of notice the application will be regarded as cancelled.

5. The department will make arrangements to carry the plant to the site. The transport fee is intended to cover the cost of the carriage of the plant. No part of it will be returned to the applicant whatever may be the cost of transport in any particular case: but on the other hand no additional charge will be made should the cost of transport exceed the above fee. The fee will be forfeited if the plant is not accepted when offered.

6. The fee for the use of a pumping plant is Rs. 3 a day subject to a minimum of Rs. 15. This fee covers the hire of the plant and the wages of the trained driver in charge thereof. All other charges connected with the work must be borne by the applicant.

7. Applicants should supply coolly labourers and provide the fuel and oil required for the plant or pay the driver in charge a sufficient sum for the purchase of the necessary stores on their behalf. Receipts will be given for sums so paid.

8. The advance of Rs. 25 covers the hire of the plant for about eight days. When that sum is exhausted further advances should be paid at once. As pumping will on no account be done on credit, the work will be stopped and the plant removed immediately the advance is exhausted unless further advances are duly paid.

9. On the completion of the pumping, any sum still to the credit of the applicant will be returned subject to the deduction of the minimum fee prescribed in rule 6.

10. Fees will be charged for the use of the pumping plant for every day that it remains at the work-spot but as a matter of grace fees may be remitted for the time during which it is kept idle on account of accident, heavy rain or other causes beyond the control of the applicants. The time during which the pumping plant is kept idle on account of the exhaustion of the advance, lack of labour or other avoidable causes will be charged for in full.

11. Certain special pumping plant working on liquid fuel are also available for monthly hire on the following terms:—

For one month	75
For three months	150
For six months	250

A transport fee of Rs. 25 will be levied in addition to cover the cost of carriage of the plant. The conditions of monthly hire are otherwise the same as those governing daily hire. No refunds will be made if the plant is not required for the full period for which it is hired. The Director, however, reserves to himself the right of withdrawing an engine without giving reasons before the expiration of the period of hire and refunding the advance paid less the daily hire calculated at the rate of Rs. 3 per day. On the other hand, applicants may extend the period of hire by paying the difference according to the above scale, provided that the hiring is continuous. In the latter case no additional transport fee will be levied.

13. The Director of Industries may, without assigning any reason, decline to lease out the pumping plant and return to the applicant any sum that may have been paid by him.

VII.—Blasting apparatus.

1. The blasting apparatus with which the department is provided is intended for the explosion of wells or borehules with a view to increasing the water-supply. Blasting will ordinarily be of use only in hard rocky soils.

2. Enquiries concerning the blasting apparatus should be addressed to the local supervisor of the department or to the Director of Industries, Post Box No. 454, Madras.

3. Applications for the use of the apparatus will be registered on payment of an advance of Rs. 10. The order in which the registered applications will be attended to will be decided by the department with reference to locality and the applicants will be duly informed when the apparatus can be placed at their disposal. If the blasting apparatus is not accepted when offered, the advance will be forfeited.

4. The advance covers the cost of one blast. For each extra blast a fee of Rs. 5 will be charged.

5. The results of the blasting will be communicated to the applicants and they will be informed what further action the results obtained suggest.

6. The Director of Industries may, without assigning any reason, decline to carry out any blasting and return to the applicant any sum that may have been paid by him.

(1) Licenses under these rules shall include the privileges of manufacture and sale of sweet toddy and shall on application be issued free to bond fide manufacturers of jaggery, to those engaged in the sale of padani or sweet toddy and to tree-owners desirous of drawing sweet toddy for domestic consumption. Provided that licenses shall be issued in the name of the applicants only.

(2) Applications for the grant of licenses must be in the prescribed form, which may be obtained free of charge from the officers of the department. They need not be stamped but should be presented [in duplicate — T.T. 6 (a) and T.T. 10 (a)] to the Inspector or the Assistant Inspector on tour, or forwarded direct to the Circle office.

(3) Under these rules licenses will be issued for drawing sweet toddy generally from trees in selected topes, such topes not being ordinarily recognised sources of supply to any toddy shop.

(4) On receipt of an application, the Inspector or the Assistant Inspector, as the case may be, unless he sees special cause to the contrary, will at once take steps for the issue of the licenses.

(5) Licenses shall be current from 1st January or any subsequent date to 31st December following.

(6) For the convenience of applicants applications will be received and licenses issued during the fifteen days preceding the sweet-toddy year, provided that no sweet toddy shall be drawn except during the currency of such license. The licensee shall not tap any tree in excess of the number which he has applied for or is licensed to tap, nor shall he be allowed to tap for fermented toddy except as provided in the next clause.

(7) Licenses will, on receipt of applications in the prescribed form, be granted to the sweet toddy tappers of the areas mentioned in the preamble for not more than three trees each for the drawing of *fermented toddy* for their own bond fide domestic consumption, but not for sale, on payment of the tax at the rate fixed for the time being for tapping for fermented toddy.

(8) No licensee to tap for sweet toddy shall be issued to any toddy shopkeeper or to any tapper employed by such shopkeeper.

(9) Sweet toddy, if for jaggery manufacture, shall be removed from the tree only between 5 a. m. and 7 p.m., and if for use or sale as a beverage only between sunrise and sunset. Outside those periods no sweet toddy drawn for use or sale as a beverage shall be kept in the garden or field containing the trees inspected to be tapped except the freshly-drawn toddy contained in the pots attached to the spathes of the trees.

(10) Sweet toddy must be at once manufactured into jaggery or sold for or used as a beverage and no such toddy shall be kept by the tapper until the day following that on which it is drawn.

(11) No sweet toddy drawn under these rules shall be conveyed to a shop for the sale of fermented toddy, or sold to any person licensed to tap or sell fermented toddy except for his own immediate personal consumption.

(12) The license is subject to suspension or cancellation by the Collectors, or the Deputy Commissioner, Northern Division, in the event of a breach of its conditions or of the commission of any offence against the Abkari law on the part of the licensee or of any person in his employment, and no fresh license shall be granted to such persons without the previous permission of the Assistant Commissioner, Cocanada Sub-division. Any person twice convicted of illicit tapping or of illicit distillation or of the illicit possession of fermented toddy may be debarred at the discretion of the Assistant Commissioner either permanently or for a time from holding a sweet toddy license.

(13) It shall be optional with the Inspector to refuse licenses for the tapping for sweet toddy of the trees of a tree-owner, any of whose trees are proved to have been illicitly tapped by persons holding on lease or otherwise under him under cover of such a license.

SUPPLY AND TRANSPORT NOTICE.

No. 15 (TEA).

1. Sealed offers by letter or telegram for the supply of Indian grown black tea required to be delivered between the 1st September and 1st November 1916 will be received by the Deputy Assistant Director of Supplies, 9th Division, Ootacamund, upto 12 noon on Saturday the 15th July 1916.

2. Offers should specify in words as well as in figures the rates at which the tea will be delivered. Fractional parts of pice in rates quoted be accepted. Rates should be quoted at so much per pound or per 100 pounds with full particulars regarding terms of delivery. Offers must be fully signed and dated. Offers by letter should be sent in a sealed or registered cover superscribed "tender for the supply of tea" and addressed to the Deputy Assistant Director of Supplies, 9th Division, Ootacamund, and not to any officer by name.

3. Offers will be opened at this office at 12 noon on Saturday 15th July 1916. Offers sent by post should be despatched so as to reach this office the day previous to opening of tenders as registered letters are not delivered in Ootacamund before 1-30 P.M.

4. Tenderers are particularly requested to give their address in full and also their telegraphic code address, if any. These should also be quoted in all correspondence.

5. Quotations should be for delivery either in regulation Army boxes (as specified in paragraph 7), or for delivery in ordinary commercial chests (see paragraph 8), and should also be for delivery (a) for the various quantities specified F.O.R. at the several stations concerned or (b) for the total requirements delivered (1) F.O.R. Madras, (2) at Supply Reserve Depot, Madras, or (3) F.O.R. at any convenient place the tenderer may select. Should any tenderer fail to specify the place of delivery it will be taken to mean that the offer is for delivery at the Supply Depot of each station of requirements.

6. No earnest money is required. The successful tenderer will be required to execute the usual informal agreement or contract dated on I.A.F.Z.—2123 or 2120 and 2121 with or without a security deposit as may be necessary.

7. The following special conditions will be included in the agreement for the supply of tea in *Regulation boxes*:—

"The tea shall be equal to the Supply and Transport sample (which can be seen by the tenderer at the Supply Reserve Depot, the Beach, Madras, or at the nearest Supply and Transport Store Depot, i.e., at any one of those named below) and free from undue proportion of dust tea and shall be contained in strong serviceable boxes (but not of enamel or cotton wood) lined with sheet lead well secured and in merchantable condition and the lids of the boxes shall be securely nailed down and not screwed. A uniform quantity of 50 lb. tea should be contained in each box which will be oblong in shape and according to the sealed sample which the tenderer can inspect in the Supply Reserve Depot the Beach, Madras, or in any Supply and Transport Store Depot measuring outside 2'-3" × 1'-11" × 1'-6" and weighing with sheet lead not more than 56 lb. 4 oz. (sheet lead 4 lb. 4 oz. and box about 22 lb.). The total weight of each box with tea is thus not to exceed 78 lb. 4 oz., viz., box with sheet lead should weigh about 26 lb. 4 oz. and tea 50 lb.

Each box should be branded thus:—

Season	..	..	.. (Correct year to be inserted.)
Indian black tea	..	..	..
Nett weight	..	..	.. 50 lb.
Gross weight	..	..	.. (To be inserted.)
From	..	..	.. (Contractor's name to be entered.)

The weight of each box with lead foil will not be rigidly insisted on but variations in the aggregate weight of the box including lead should not exceed 5 lb. for instance 2 lb more or 3 lb. less may be accepted. Empty tea chests and lead will become the property of Government."

8. Alternative rates may also be quoted for tea packed in sound and thoroughly serviceable *tea chests of ordinary commercial pattern* fit for transit by rail, instead of in the Regulation Army boxes above described, but it should be clearly specified in the offer what style of packing is tendered for. These boxes should also be marked as per paragraph 7 above.

9. The approval or rejection of offers rests with the General Officer Commanding, 9th Division, who reserves to himself the right of rejecting any offer, or any items in a tender, or a portion thereof, without cause assigned. The lowest tender need not necessarily be accepted. As a rule only successful tenderers are informed by telegram of the result of their offer. No notice can be taken of requests from unsuccessful tenderers for information by telegram unless the cost of such telegram is prepaid.

10. All consignment deliverable free on rails to fulfil, out of the contract should be despatched at the ordinary Public Tariff rates and not at the Military Tariff rates. Further it is not incumbent on contractors to book their supplies to a Government official as has previously been the case.

11. A fair average two-pound sample of tea should be sent to this office a week before the tenders are opened.

12. Any further information required can be obtained on application to this office between the hours of 11 a.m. and 3 p.m. (Sundays and holidays excepted).

13. The probable estimated requirements, which however can not be absolutely guaranteed, are as under:—
